

Dear Students and Families:

Lawson High School provides students many opportunities to enroll in advanced coursework. Students are encouraged to challenge themselves academically and take advantage of advanced courses that best align with their postsecondary aspirations and goals. Many of these opportunities can be applied toward college credit to save both time and money in the future.

MNPS encourages all students to consider pursuing challenging courses. Advanced courses can open future doors, be rewarding intellectually, and help students stretch themselves to reach their potential.

To learn more about advanced academic offerings available, please visit <https://bit.ly/lawsonaa> or scan the QR code below.

Parents have the option to request that the student be removed from an advanced academic course prior to the end of the first grading period.

If you have any questions or need course enrollment information, please contact the school at 615-353-2025.
